SURFACE ANALYSIS

The map displays several key features:

- Pressure Systems:** A low-pressure system (L) is centered near the Philippines with a central pressure of 992 hPa. Other systems include a low of 998 hPa further north and a high of 1024 hPa to the east.
- Weather Conditions:** Areas labeled "FOG [W]" indicate fog over the Philippine archipelago. "ALMOST STNR" labels are present near the 998 hPa and 1004 hPa systems.
- Wind Patterns:** Wind vectors and speeds are shown throughout the region, with some areas indicating speeds up to 15 knots or more.
- Geographical Labels:** The map includes outlines of the Philippines, Taiwan, and parts of China and Japan.
- Time and Source:** The analysis is for 110600 UTC on August 20, 2013, provided by ASAS JMH.
