LOW-PRESSURE CENTER

New FORMATION EXPECTED

SCALE IN NAUTICAL MILES

A graph showing the relationship between Latitude (Y-axis, 0 to 60N) and Nautical Miles (X-axis, 0 to 600). The graph contains six curves representing distances of 100, 200, 300, 400, 500, and 600 nautical miles. The curves are concave down, indicating that the rate of change of latitude with respect to distance decreases as distance increases.
